Position available

National Institute of Biomedical Genomics (NIBMG) Kalyani is an Institute of Government of India, Ministry of Science & Technology, Department of Biotechnology. The Institute has created necessary physical infrastructure and critical platform technologies to support research, translation and training in biomedical genomics.

Applications are invited for the position of Project Linked Persons for extramural projects to be executed by the National institute of Biomedical Genomics, Kalyani. Selected applicants will be appointed for a period of ONE YEAR. The tenure of appointment may be extended depending on performance and availability of funds.

NIBMG invites eligible candidates for the position of a Data Analyst to work on a project that seeks to study the Skin Microbiome.

**Project Name:** Probiotic Approach to Control Dry Skin: Project “Host Genomic Alteration and Metagenomic Profiles of Skin Microbiome Associated with Atopic Dermatitis. **Project Code:** <20239>

**Research Description:** Cataloging the changes in bacterial, viral and fungal composition from normal skin microbiome to a diseased state using 16S rRNA gene sequencing and whole shotgun metagenome sequencing, metatranscriptomics along with highlighting the novel interplay between host genetic and metagenomic correlates in diseased individuals.

**Place of Work:** National Institute of Biomedical Genomics, P.O.: N.S.S., Kalyani 741251, West Bengal.
