Position available

A position for a highly motivated person capable of working independently as a Postdoctoral Fellow is available for an extramurally funded project being conducted at the National Institute of Biomedical Genomics (NIBMG), Kalyani. Selected applicants will be appointed for a period of ONE year, to be extended based on their performance and availability of funds.

**Project Name:**

**Enabling Diagnosis and Treatment of Breast Cancer throughout India**

The goal of this project is to develop a simple diagnostic test for breast cancer that is cheap, reliable and efficient for both diagnosis and monitoring. The basis for this test is liquid biopsy - isolating tumor-secreted vesicles or circulating cell-free DNA (cfDNA) in blood and assaying their contents for cancer biomarkers that will inform both diagnosis and treatment.
