

Zebrafish Models in Biomedical Research

A hands-on workshop

January 15-16, 2026

 NIBMG, Kalyani

Program highlights

- Introduction to zebrafish as a model organism
- Husbandry and Microinjection
- Cryosectioning & Histology
- Advanced imaging techniques

Eligibility criteria

- **Essential qualification:** Masters degree in any branches of life sciences.
- **Desirable qualification:**
 - Applicants pursuing active research in biomedical science.
 - Interest in understanding human disease biology using model systems.
- **Number of participants:** 10
- **Registration:** Free.
- **Accommodation** will be provided in the NIBMG guest house.

Application deadline:
20th December, 2025
